

Aquacure

WATER-BASED ACRYLIC CONCRETE SEALER

PRODUCT DESCRIPTION

Aquacure is a ready to use hardener and dust proofer that provides superior protection against moisture intrusion and other foreign elements. **Aquacure** is also designed to prevent freezing and cracking on patios, porches, driveways, slabs and other like surfaces.

FEATURES AND BENEFITS

- Safe to use in areas where there is minimal ventilation
- Easily applied using sprayers due to low viscosity
- High resistance to efflorescence and alkali

COVERAGE RATE

Evenly apply **Aquacure** to new (unsealed) concrete for a 1st coat coverage of 250-350 sq. ft. per gallon. When using on old (sealed) concrete apply evenly for a 1st coat coverage of 350-400 sq. ft. per gallon. Second coating is optional but not required and results in a coverage rate of 350-400 sq. ft. per gallon.
