

Black Bull Acrylic Concrete Sealer

UV RESISTANT HIGH GLOSS 30% SOLIDS CONCRETE SEALER (CLEAR, BROWN, GRAY)

PRODUCT DESCRIPTION

Black Bull is a high gloss, solvent based acrylic exposed aggregate and concrete sealer. **Black Bull** offers improved resistance to rain, sun, freezing temperatures and other pollutants that can sometimes cause damage to concrete surfaces. A sealer for all types of concrete construction, **Black Bull** is designed to enhance the beauty of exposed aggregate surfaces.

FEATURES AND BENEFITS

High solids content allows for superior protection.
Leaves a high gloss shine to beautify concrete.
Ideal for enhancing the look of exposed aggregate.
Helps to prevent pea gravel from loosening.
Bonds to surface without peeling, flaking, or fading.

SPECIFICATIONS

ASTM C 309, Type 1 Class A & B
ASTM C 1315, Type 1, Class A
AASHTO Specifications M 148 Type 1 Class A & B
Black Bull has a shelf life of up to 2 years in its original unopened container.
Coverage rates vary depending on the application method as well as the porosity and texture of the concrete.

COVERAGE RATE: Approximately 100-150 sq. ft. per gallon

***Also available in Matte Finish or Super Gloss**
