

BLACK BULL *Premium Seal* Durable Non-Yellowing Acrylic Concrete Sealer

PRODUCT DESCRIPTION

Perk Premium Seal™ Acrylic Concrete Sealer curing and sealing compound is a 25% solids one coat ready to use, non-yellowing sealer, hardener, and dustproofer. Premium Seal™ dries quickly and will not discolor concrete surfaces.

Seals and dust proofs all concrete surfaces providing durability and insures that premium strength, greater wear resistance and minimum dusting are achieved. This product exceeds the moisture retention requirements for ASTM C-309-1. Seals to prevent freezing and cracking on driveways, stained or stamped finishes, patios, porches, garages, walkways, exposed aggregate, new or old concrete, and all concrete surfaces. Premium Seal™ dries to a clear natural, wet look.

This material dries to a slightly darkened wet look that will not yellow. Premium Seal™ resists penetration from salt, oil, grease, water and other damaging effects to concrete. Our clear sealer is ideal for all types of concrete surfaces.
