

CALCIUM CHLORIDE PELLETS

Calcium Chloride Mini Pellets

93-97% PURE CALCIUM

PRODUCT DESCRIPTION

Calcium Chloride is an anhydrous purified inorganic salt produced by removing water from a naturally occurring brine solution. Anhydrous **Calcium Chloride** 94-97% meets or exceeds ASTM D98 and AASHTO M144 requirements for calcium chloride purity. **Calcium Chloride** is widely used by consumers, commercial de-icing companies, and government agencies.

PROPERTIES AND BENEFITS

- Consists of mini pellets for easy spreading.
- Melting Range to -25 Degrees.
- Generates heat as it dissolves.
- Forms ice melting brine faster than any other de-icing substance available by attracting moisture from its surroundings.
- Pellets have a round shape that allows concentrated melting action on a targeted area of snow or ice.
- Pellets bore through ice faster than flat or crystal shaped substances.

PACKAGING SIZES & QUANTITIES

40 lb Bags / 65 Bags per Pallet

16 Pallets per FTL

20 lb Bags / 130 Bags per Pallet

16 Pallets per FTL

***Also available in bulk quantities upon request. Call for pricing and availability.**
