

# RELEASE 880

## Release 880 Form Release

SPRAYABLE LIQUID FOR CONCRETE FORM RELEASE

### PRODUCT DESCRIPTION

**Release 880 Form Release** is a pale amber, non-viscous, sprayable liquid for application to forms prior to placement. **Release 880 Form Release** greatly enhances form removal following set. It contains chemically active ingredients, as well as ingredients that physically repel water. **Release 880 Form Release** contains no waxes.

### FEATURES AND BENEFITS

**Release 880 Form Release** is ready to use, and can be stored, as well as applied in below freezing temperatures when necessary. It is best to apply to clean and dry forms. Sprayers can be easily cleaned up with Mineral Spirits after using **Release 880 Form Release**.

### COVERAGE RATE

Plywood 600-800 sq. ft. per gallon  
Steel/Plastic 1500 sq. ft. per gallon

Form brackets, tie rods, shoring and scaffolding can be treated daily, or as needed to soften build-ups and to prevent excessive accumulations.

**\*Also available in Odorless**
