

# INDUSTRIAL BLEACH

## Sodium Hypochlorite 12.5%

LIQUID CHLORINE

### PRODUCT DESCRIPTION

**Sodium Hypochlorite** is the main ingredient in laundry bleach. It is used primarily as a bleaching agent in the detergents, textile, paper and pulp industries. Large quantities of **Sodium Hypochlorite** are also used as a disinfectant in water and waste water treatment facilities and equipment.

### PRECAUTIONS

**Sodium Hypochlorite** should never be mixed with ammonia. Avoid swallowing **Sodium Hypochlorite** or getting it in your eyes. In the event of inhalation of **Sodium Hypochlorite**, leave the affected area and seek fresh air.

For those customers and industries using **Sodium Hypochlorite**, proper workplace controls and safety precautions need to be in place to ensure the proper safe use and storage of this product.
