

Sure Seal Acid Stains

Inorganic Acid Based Stain

PRODUCT DESCRIPTION

Sure Seal Acid Stains are a line of double strength inorganic, acid based stains that react with the concrete as they penetrate deep into the surface to produce vibrant colors resembling nature's mineral colors and hues with the permanence of nature's minerals.

Malay Tan

Cola

Black

Aqua Blue

English Red

Golden Wheat

Green Lawn

Vintage Umber

Fern Green

Dark Walnut

Note: The final color of the concrete may not match the colors shown here due to variables beyond our control including finishing techniques, job conditions and curing methods.

USES & APPLICATIONS

Sure Seal Acid Stains are applied to any clean, cured concrete surface or concrete overlay surface and allowed to react and dry. Once washed and sealed, the various colors that are applied become a permanent part of the concrete with lasting beauty.

PROPERTIES

Type: Reactive acid based concrete stains
