

## Sure Seal – S

SILOXANE WATER REPELLENT (CONCENTRATE & READY TO USE)

### PRODUCT DESCRIPTION

**Sure Seal – S** is a solvent-free blend of silanes and oligomeric alkoxy siloxanes that mixes easily with water to produce a penetrating water repellent ideal for application to dense or porous masonry surfaces. An effective alternative to conventional solvent-based silanes or siloxanes, **Sure Seal –S** penetrates and chemically bonds deep within the masonry substrate to provide long-lasting protection against water-related staining or deterioration. Will not darken, produce a surface film or impair the natural breathing characteristics of treated surfaces.

### FEATURES AND BENEFITS

- Easy To Use
- Long Lasting Protection
- Easy Clean Up
- Water-Based
- Alkaline Stable

### LIMITATIONS

- Product must be applied within 24 hours of dilution for maximum effectiveness.
- Will not prevent water penetration through structural cracks, defects, or open joints

### USES & APPLICATIONS

**Read the full label and MSDS for precautionary instructions before use!**

**Sure Seal – S** can be applied horizontally as well as vertically to many different substrates including: Architectural Concrete Block, Fired Clay, Concrete, Granite, Sandstone, Marble, Travertine, Limestone, and Slate.

### TECHNICAL INFO

Active Content: 100%

Total Solids (Concentrate): 48%

Shelf Life: 1 year in unopened container
